ARQTK

ALAM RODRIGUEZ PEÑA & TATJANA KONJIKOVAC

A harmonious duo of architects crafting refined, intentional design tailored to you with timeless clarity.

Our Story

ARQTK began in Milan, when the two of us were placed on a project that changed everything. We didn't expect it, but from the very first sketches, there was a quiet harmony in the way we understood space, beauty and intention. What started as collaboration quickly became a shared language, a way of designing that felt natural, effortless and deeply connected. Alam brings precision, clarity and a refined architectural eye, while Tatjana brings sensitivity, elegance and an intuitive sense of how a space should feel. We come from opposite ends of the map, Mexico and Serbia, yet our instincts met in the middle as if they had always belonged together. Through that first project and every one that followed, our partnership grew into something stronger than a workflow. It became trust, dialogue and a genuine desire to understand the people we design for. ARQTK is the result of that journey: two architects in harmony, creating spaces with intention, emotion and a level of care that makes you **feel truly seen**.

Our Process

[01]	[LISTEN]	DISCOVERY & UNDERSTANDING YOU	We learn about your lifestyle, your needs, your taste and how you want your space to feel.
[02]	[IMAGINE]	CONCEPT & MOOD DEVELOPMENT	We translate your ideas into a visual direction. This includes mood boards, color palettes, material inspiration and early spatial ideas.
[03]	[SHAPE]	SPACE PLANNING	We design the layout: Furniture placement, circulation, lighting logic, and functional flow.
[04]	[REFINE]	DESIGN DEVELOPMENT	We refine the concept into a full design : Selecting materials, finishes, furniture, lighting, fabrics and every detail that shapes the space.
[05]	[EXECUTE]	PROCUREMENT & COORDINATION	If you choose this service, we handle ordering, logistics and coordination with suppliers and contractors.

Every step of our process is built around you - your story, your needs, your way of living, so the final space feels truly yours.

Our Packages

I Essential

Concept Boards

A curated visual direction showing the mood, atmosphere and design language of your future space.

Layout Option

Clear floor plan proposals exploring different ways to organize furniture, circulation and functional zones.

Material Direction

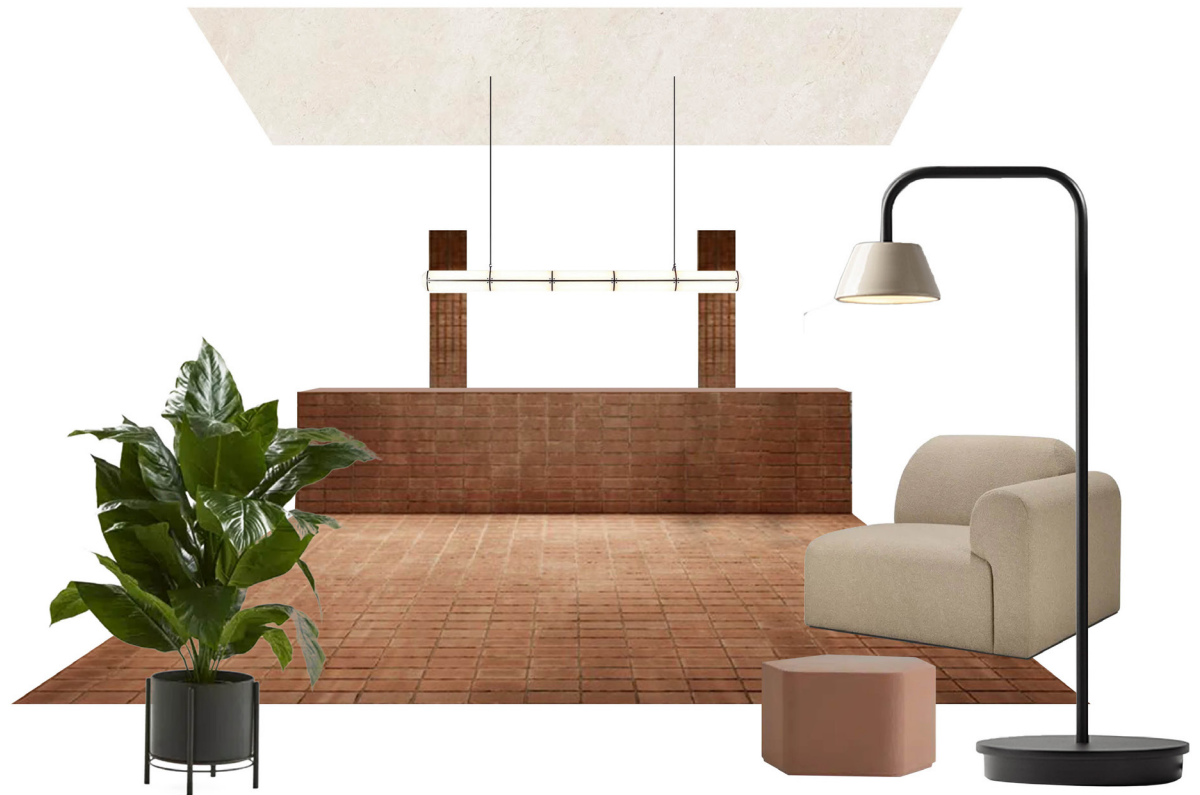

A selection of suggested materials and finishes that define the tone of the project (not full specifications).

Furniture Style Direction

A guide to the type of furniture that fits the concept shapes, textures and styles without a full shopping list.

PDF Design Dossier

An organized document summarizing all design decisions so you can implement the project confidently.

Outcome: You can understand your space clearly, make confident decisions and begin shaping the project with a refined, intentional vision.

ARQTK

Our Packages

II Complete

Full Design Dossier

A comprehensive document with all design elements, ready for the contractors or suppliers to execute.

Detailed Layouts

Finalized floor plans with precise furniture placement, circulation logic, and spatial organization.

Material Boards

A complete selection of materials and finishes, including colors, textures, and samples that define the space.

Furniture, Fixtures & Equipment List

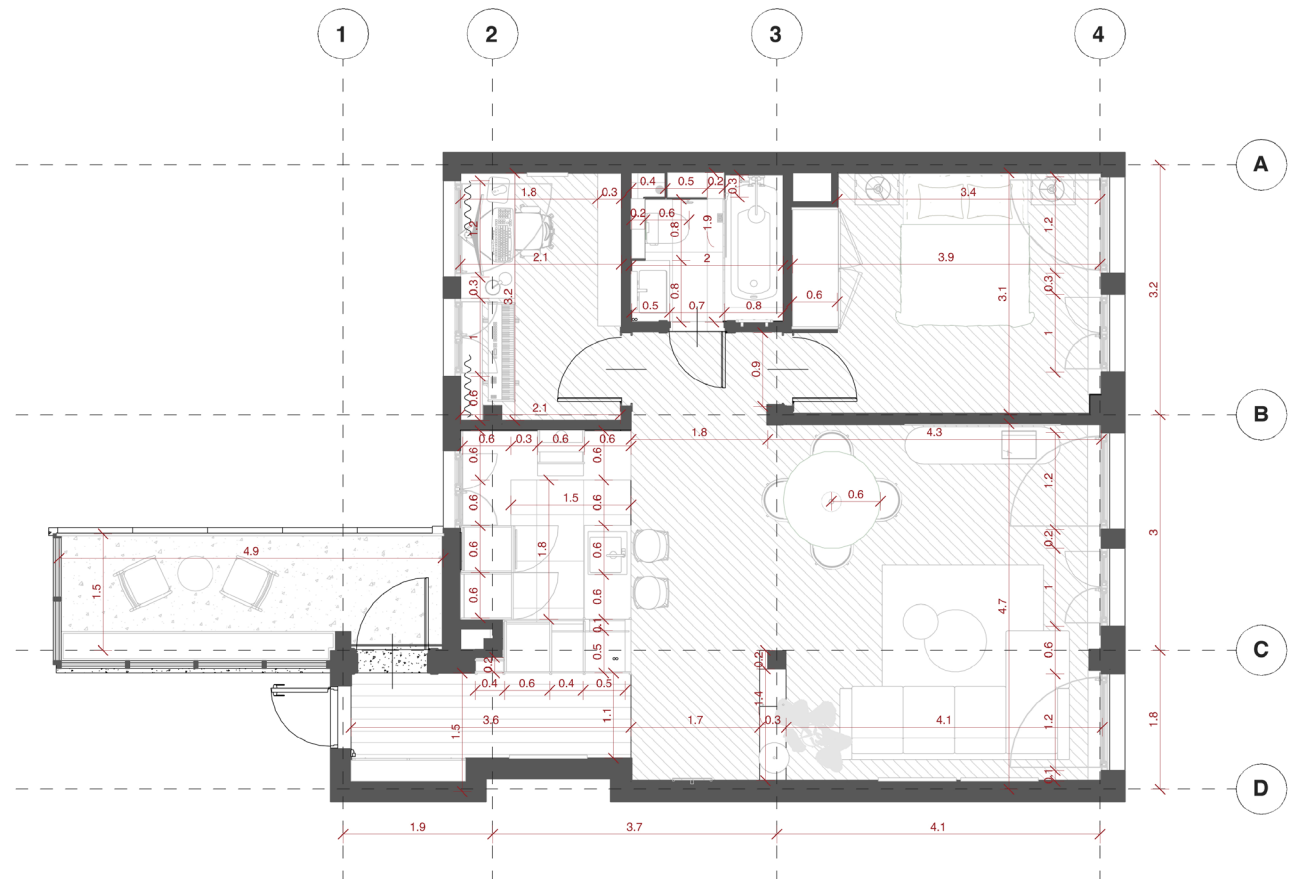

A detailed list of all selected items furniture, lighting, décor, fabrics with specifications and quantities.

Lighting Plan

A functional and aesthetic lighting strategy, including fixture selection and placement.

3D Visualizations

Photorealistic or conceptual renders that show exactly how the space will look once completed.

Outcome: By adding this package you can move directly into execution handing the design package to contractors or suppliers.

Our Packages

III Premium

Procurement Guidance & Oversight

We help you make informed decisions by preparing clear purchasing lists, reviewing supplier quotes and advising on quality, pricing and compatibility.

Supplier & Contractor Coordination Support

We assist you in communicating design intent to suppliers and contractors. This includes reviewing proposals, advising on timelines and ensuring the design is understood while you remain the primary point of contact.

Installation Review

We provide oversight during installation by reviewing progress, checking alignment with the design package.

Final Handover Package

A clear, organized summary of your completed project.

Outcome: By adding this package you can execute the project smoothly, supported by expert advice and final setup while remaining fully in control.

ARQTK

ARQTK

We look forward to shaping your space with you.
